CAR BOOKING SYSTEM

" Create a simple cloud software application and provide it as a service using any cloud service provider to demonstrate software as a service (SaaS).

AIM:- To develop a cloud software application for Car Booking.

PROCEDURE:-

- * Go to zoho.com (open source).
- * Sign-up with your e-mail and password for verification.
- * Click Creator icon (🔗)
- * Click Creator Access Button.
- * Select Application box on the screen.
- * Select either 'click from scratch' or 'Create from Gallery'.
- * Select the category based on your web-page.
- * Select template and upgrade.
- * If you need to publish, select Publish icon at the environment.
- * Choose your field 'Car booking system'.
- * Car name, Driver name, Numberplate, location, Destination, time duration, Booking date, cost of travel.

DIAGRAM :-

NAME	<input type="text"/>	<input type="text"/>
Travel-Date	<input type="text"/>	
Employee-Id	<input type="text"/>	
Email-Id	<input type="text"/>
